I like (I like it) I like (I like) I like (Oh baby) I like it (I)
I like, I like (kiss me allover) , I like, I like (Oh yeah)

Verse 1

Patently waiting for you to walk through the door
I can hardly wait, 'cause I know what you're coming for
Another night of extacy, the things you do to me
Girl you give me so much pleasure, freak me baby
whatever
I want you to

Take me to another world (Oh baby)
Freak me be my nasty girl (Freak me whatever all night
)
All night long girl don't hold back (Don't you hold back,
no)
Keep it right there girl I like it like that (I like it)

Chorus

I like (I like it) I like (I like) I like (Oh baby) I like it (I)
I like, I like (kiss me allover) , I like, I like (Oh yeah)

Verse 2

When the lights go down it's on until the early morn'
Our bodies join together now I see it's done
You lick me baby allover and I never let you go
'Cause you're my nasty lover and I'm your scorpio

Take me to another world (Take me baby)
Freak me be my nasty girl (Oh baby)
All night long girl don't hold back (All night long, no,
no, no baby)
Keep it right there girl I like it like that (I like that)

Chorus

I like (I like it) I like (I like) I like (Oh baby) I like it (I)
I like, I like (kiss me allover) , I like, I like (Oh yeah)

The way you tease me baby
The way you please me baby
Keep it going on

The way you please me baby
Keep it going on
On and on and on
