it's not subtle manipulation i'm back home again and i
can settle down
back east new jersey and it's fucked up doesn't make
me laugh now
stare down skyline bye

falling through this time
i lost my motivation
falling through on time
forgot to say my line

i tried to make it but it never came together seemed
contrived drive down lakeside
take one thousand misdirection and it seems far from
my mind not in real time
don't wonder why

drive one thousand miles
