"Keep On Fighting"

Visit "[Keep On Fighting](#)" on MotoLyrics.com

You have a feeling that nothing ever goes right for you
No matter what you may try
Your willpower's gone, wiped out by the failures you've
been through
Now you're disheartened and tired

Look around you and face the truth
It's the law of the jungle and the weak always lose
Pick yourself up
Your life is in your hands

Keep on fighting, don't let go
Just hold on tight to what's right for you
And then, one day, you'll make your dreams come true

Some people say that we're all victims of destiny
Bound to accept our fate
Too many others prefer to shun reality
Through a self-destruction game

Feel the power within your heart
'Cause if you don't believe in yourself you won't get
very far
Take your chances
And never admit defeat

Keep on fighting, don't let go
Just hold on tight to what's right for you
And then, one day, you'll make your dreams come true

Keep on fighting, don't let go
It's said that fortune favours the brave
So forge ahead and don't hesitate

Keep on fighting, don't let go
Just hold on tight to what's right for you
And then, one day, you'll make your dreams come true
