You always treat me bad  
I'm the whipping boy in your set  
You make it plain for all to see  
You don't even give a damn  
'Bout my feelings or my pride  
When you make a fool of me

I like to say I hate you  
But it's not true  
'Cause I feel safe in your shadow  
Living my poor life through you

Enslaved by my own weakness  
And my predisposition  
For silence and submission  
Condemned to creep in the darkness  
I just can't face the real me  
And my fear of being set free

You've become my punishment  
My self-inflicted nemesis  
The pain I endure every day  
But like a natural born victim  
Still waiting for more  
I can't resolve to go away

I could have tried to leave you  
But I never did  
'Cause I need to feel your power  
And I'd be lost without it

Enslaved by my own weakness  
And my predisposition  
For silence and submission  
Condemned to creep in the darkness  
I just can't face the real me  
And my fear of being set free

Enslaved by my own weakness  
And my predisposition  
For silence and submission

Condemned to creep in the darkness  
I just can't face the real me  
And my fear of being set free
