This night I dial my soul
The fear of loosing it all
Is torturing me
I'm on my knees
These dying senses inside
Resurrected tonight
Searing me
My mental decease

Scenes of my life
Random slideshow
Reminding me of the unknown
Thorns in my heart
Nails through my soul
I rome tonight the outer space
Searching for you in eternal grace
You are the cure
To heal my wounds

I'm on the edge to meet my fall
I'm about to lose control
Exiled
Denied

I'm only one
In my own fantasies
Lost in the maze of screens
You are the one to lead me astray

The scars I hide begin to bleed
I've lost my path in time of need
I'm on my own
But not alone
I rome tonight the outer space
Searching for you in eternal grace
You are the cure
To heal my wounds
