Machines of torture and destruction
Are spread against our hated enemies
Heaven cannot stop our artillery
Everything is damned destruction to our step
Havocs feel te heaven's kingdom
With fire bombraids and iron we desolate
Until achieving their total devastation
The supreme hatebringers sow abomination

Total destruction of christ-666
It is the bloodshed time -666
The evil's platter -666
War is war -666

Demoniac conquest on the god's planet
Only for thee I grip my weapons
Oh! glorious ruler of roaring abyss
You give forces to the avenger legionearies
To combat and die for your glory
Your total domain oh! satan has arrived
By hand of your soldiers loaded with
Your infernal and relentless fire

Utter destruction of christ-666
It is triumphator's time -666
The evil's platter -666
Death and war -666

Total destruction of christ-666
It is the bloodshed time -666
The evil's platter -666
War... -666
