In the land reign ferocious plagues  
The blood flows like an endless stream  
Time after time, rain fire and pain  
Christians suffer sickness and pestilence

The throne of lucifer  
Established on the earth  
Burnin pandemonium  
The throne of lucifer  
Established on the earth  
Burnin burning pandemonium

Destiny is torment, never salvation  
Without hope arise, the fear within  
Sun no raise in the dark realm  
Surrounded by predatory beasts

We have return, but now we are inmortals  
In our wicked spirits born the beast  
The resurrection of nightmare on the earth  
Is the path for rebirth of chaos and death

The throne of lucifer  
Established on the earth  
Burnin pandemonium  
The throne of lucifer  
Established on the earth  
Burnin burning pandemonium

Destiny is torment, never salvation  
Without hope arise, the fear within  
Sun no raise in the dark realm  
Surronded by predatory beasts
