King Henry 8th my father hoped I have some Tudor  
brothers mum had no sons,  
So rather I got plenty of step mothers when at last  
prince Ed was born the  
Crown I bid adieu they said as king he must be sworn  
boys go first in the  
Queue but there's no worry if at first you don't succeed  
when Ed died I  
Swept aside the rest and was decreed

Mary the first that's me Tudor lady and queen of  
England not to be confused  
With Mary queen of Scots not the same see though  
weirdly she's a cousin to  
Me

Some tried to say Lady Jane Grey should be queen  
after Ed but England  
Wanted me hooray so poor Jane lost her head the  
Protestants were saying  
That my ruling made them sick 'cause when it comes to  
praying my tastes  
Were catholic they revolted, challenged me fuelled my  
great desire to tie  
300 to a steak light touch paper then retire

Mary the first that's me called the bloody queen of  
England not what I  
Intended tried to be good you see but history only  
remembers I was a  
Catastrophe

Married Phillip king of Spain who then left me England  
he thought was a  
Pain especially 'cause he told me to attack France with  
troops and when the  
French advanced we lost Calais oops through out my  
reign it rained and  
Rained it poured upon the poor the harvest failed no  
food remained and flu  
Killed many more burned Protestants and wed a fool

led armies to defeat  
Burned more Prots I say more rule was short but not  
that sweet I had no  
Kids called half sis Liz as a big queen Bess to be so  
long as she would  
Rule the land as a catholic queen like me

Lizee didn't listen she made the country Protestant  
meaning my legacy was  
Ruined see everything I tried to achieve went down the  
swanny

Bit embarrassing really
