[Karyn:]

I didn't come here for a private show
I just came here to let you know
Who's the boss around this home
Get it together or you'll be alone
It doesn't matter what you tell me
Because from what I can see

[Katrina:]

You never loved me anyway
You never said you felt the same

[Chorus - Both:]

So I don't love you anymore
There you go, baby there's the door
You'll be locked out once you walk out
Let me demonstrate what I'm talking about
There will be no more loving you
No more hell you've put me through
Because I'm done, I'm just done
And there's not a thing you can do

[Karyn:]

If I haven't made it clear enough
When it boils down to push and shove
I won this was a long time ago
But I've been sleeping in the afterglow
Of what we used to share
But now I know you never cared

[Katrina:]

And I refuse to be led on
So it's best that you get gone

[Chorus - Both:]

So I don't love you anymore
There you go, baby there's the door
You'll be locked out once you walk out
Let me demonstrate what I'm talking about
There will be no more loving you
No more hell you've put me through
Because I'm done, I'm just done

And there's not a thing you can do

[Both:]

You pissed me off every single day
And being with you drove me insane

[Katrina:]

So here's our official goodbye
Throwing out your pitiful lies
And all those hopeless tries

[Chorus - Both:]

So I don't love you anymore
There you go, baby there's the door
You'll be locked out once you walk out
Let me demonstrate what I'm talking about
There will be no more loving you
No more hell you've put me through
Because I'm done, I'm just done
And there's not a thing you can do
There will be no more loving you
No more hell you've put me through
Because I'm done, I'm just done
And there's not a thing you can do

[Karyn:]

There's nothing you can do
