[Katrina:]

I want to tempt you with a glass of wine
Make you scream "hell yeah!" every single night
Get you up when I'm naked, take you for a ride
Static static boom boom, it's love magic time

[Karyn:]

I'll buy you some ice cream, maybe even toys
Since I know you like it dirty, I'll make lots of noise
Kinky little lover, we can do it with several boys
Whatever is your flavor, sexy it's your choice

[Both:]

We can make the bass sweat with our sex
Kiss you from head to toe, making you so wet
Even though we both know, we're going to hell for this
But we'll have fun on the way, so come on, let's do it

[Both:]

Baby it's okay if you ashamed
I like it when you're shy anyway
It kinda gets me going, kinda turns me on
We'll do it dirty all day and all night long
We like taboo, don't you don't you?
We like taboo, don't you don't you?
We like taboo, don't you don't you?

[Katrina:]

It's kinda naughty how you tease
I don't put out if you don't say please
So baby give it to me, I'll put you at ease
You're not like every other guy, selfish stupid sleaze

[Karyn:]

Sexy outfit and it's just for you
Imagine all that we could do
I'll make it softer if you want me to
Still I love the things you put me through

[Both:]

We can make the bass sweat with our sex
Kiss you from head to toe, making you so wet

Even though we both know, we're going to hell for this
But we'll have fun on the way, so come on, let's do it

[Both:]

Baby it's okay if you're ashamed
I like it when you turn red anyway
It kinda gets me going, kinda turns me on
We'll do it dirty all day and all night long
We like taboo, don't you don't you?
We like taboo, don't you don't you?
We like taboo, don't you don't you?

[Instrumental dance break]

[Both:]

Baby it's okay if you're ashamed
I like it when you're shy anyway
It kinda gets me going, kinda turns me on
We'll do it dirty all day and all night long
We like taboo, don't you don't you?
We like taboo, don't you don't you?
We like taboo, don't you don't you?
We like taboo, don't you don't you?
We like taboo, don't you don't you?
(Ah!)
