[Karyn:]

I want you to make me feel like I'm a fire
You're the object of my pleasure and desire
And when I look around and feel you
I feel the bass beat and I wanna move
In your arms or under your skin
Even though I know this is a sin
Being bad has never felt so good
I would make the night stay forever if I could

[Chorus - Both:]

Make me dream of nights laying in your bed
When we wake up, I'd kiss you on the forehead
To make you know I'm gonna stay around
And when you're feeling lost and so forlorn
I will be there in a second knocking on the door
So tell me what are you gonna do now?
Now that you know I love you

[Katrina:]

Every time you hold my hand I go insane
I'm addicted to your body, you are my cocaine
And I don't ever want to go to rehab
Because my heart just couldn't take that

[Both:]

And when we dance in the middle of my favorite song
I've never dreamed of something so amazing, all night
long
I fantasize about the things that we could do
Maybe there's a chance that you love me too

[Chorus - Both:]

Make me dream of nights laying in your bed
When we wake up, I'd kiss you on the forehead
To make you know I'm gonna stay around
And when you're feeling lost and so forlorn
I will be there in a second knocking on the door
So tell me what are you gonna do now?
Now that you know I love you

[Chorus - Both:]

Make me dream of nights laying in your bed
When we wake up, I'd kiss you on the forehead
To make you know I'm gonna stay around
And when you're feeling lost and so forlorn
I will be there in a second knocking on the door
So tell me what are you gonna do now?
Now that you know I love you

[Karyn:]

If I could stop this trance, I wouldn't
Never want to quit this dance and I shouldn't
Strobe lights all around and I fall down
I'll make you know I'm gonna stay around

[Chorus - Both:]

Make me dream of nights laying in your bed
When we wake up, I'd kiss you on the forehead
To make you know I'm gonna stay around
And when you're feeling lost and so forlorn
I will be there in a second knocking on the door
So tell me what are you gonna do now?
Now that you know I love you

[Chorus - Both:]

Make me dream of nights laying in your bed
When we wake up, I'd kiss you on the forehead
To make you know I'm gonna stay around
And when you're feeling lost and so forlorn
I will be there in a second knocking on the door
So tell me what are you gonna do now?
Now that you know I love you
