"... And She Smiled"

Do you find your kisses gone
when she kisses everyone ?
Mmm...pretty, pretty eyes
didn't she take you by surprise ?
She will lose you sleep
under horizontal command
She will kick...
kick you, kick you down at heel
Two shoes, Toulouse you lose
Kiss-yous, miss-yous what's the use p.s?
"I loved you", and she smiled
the caustic croon of something wild
She will lose you sleep
under horizontal command
She will kick...
kick you, kick you down at heel
Pretty baby, pretty heart, pretty
pretty pretty high, pretty low,
Pretty angel, pretty pretty
pretty dumb, pretty smart.
I-I-don't know what to do,

To keep myself in love with you.
Life is made of ones and twos
I just know I'm going to lose.
She will lose you sleep
under horizontal command
She will kick...
kick you, kick you down at heel
Pretty baby, pretty heart, pretty
pretty pretty high, pretty low,
Pretty angel, pretty pretty
pretty dumb, pretty smart.
Pretty baby, pretty heart, pretty
pretty pretty sound, pretty sharp,
Pretty angel, pretty angel
pretty pretty pretty pretty
Pretty baby, pretty heart, pretty
pretty pretty high, pretty low,
..and she smiled
