Yes.. please let it begin
I want you to smile within,
Oh, a moment on the arm of wonder.
What, what more can I ask,
than for you to look at me, whisper to me,
show me you'll be wrapped about me.
Tell me, tell me, tell me everything
you and I can share within,
Oh, the darker moments vanish into air.
Breathe me, I am air
Touch me, I am sky,
Breathe me, like the first time.
I hold you in my heart
Touch you, with my eyes,
Breathe me, like the first time.

What, what more can I ask
than for you to look at me, wondrously, and
say "I love you", say you love me.
Tell me, tell me everything
you and I can feel within
Oh, the darker moments vanish into air.
Breathe me, I am air
Touch me, I am sky,
Breathe me, like the first time.
I hold you in my heart
Touch you, with my eyes,
Breathe me, like the first time
