I sold the world
I bought it too
I couldn't stop to think it through
If I don't get my records back
I'll never live it down

I keep missing all these clues
C'mon you c'mon you
You know you're missing all the action
I couldn't stop to think it through
If I don't get my records back
I'll never live it down

This is what I said
This is what I said
I couldn't stop to think it through
If I don't get my records back
I'll never live it down
I'm the sound of breaking records
Falling to the ground
If I ever live it down
If I ever live it down
I'm the sound of breaking records
Falling to the ground

C'mon you c'mon you
You're missing all the action [x3]
