Centre of my dreams
Can't hear me call
I want you
But you'll never see and notice me at all
Haunted by your words
I got drunk tonight
To forget you
I cannot blur the pictures on my mind

Chorus:
It's not your fault
That I cannot reach you
It's not your fault
I'm longing for you...
Tearing up the inner man
To crumple up my feelings
Cause I know that
It's not your fault

Swansong in my head
Written down at night
I'm alone
But a glimmer of hope is keeping me alive
Fate decide...
I fell on evil days
And I wish that I have never seen your face

Chorus
