"Killer Ants"

Visit "[Killer Ants](#)" on MotoLyrics.com

There are some insects in my brain
Crawling and driving me insane
Their queen has left them on my mind
They come when I turn off the light

This Sunday afternoon
The day she flew away
These killer ants survived
They're eating me alive
This Sunday afternoon
The day she flew away

Alone in bed I hear them eat
They slip and slurp- can't fall asleep
Their acid burning on my skin
They decompose me from within

This Sunday afternoon
The day she flew away
These killer ants survived
They're eating me alive
This Sunday afternoon
The day she flew away

They're crawling- I'm falling
Killer ants infesting all of me
Their breeding- increasing
Killer ants infesting all of me
