Come on by you know I'd really like to talk to you  
by and by we might just happen to find out we do  
have got

Come on by you know I'd really like to talk to you  
by and by we might just happen to find out we do  
have got

more than a little in common we ought a go just to sit  
awhile and we'll see

then we might discover differences that make us say  
its not right at all with any game you want to play  
baby

your caught in the middle of a terrible  
road

lets sit awhile and we'll see

queen of hearts go ahead  
play your parts instead of the real thing  
which will never come  
use your head

baby please I just don't get the point because you see  
I don't need anymore from you than you'd expect from  
me

you just  
love with a trifle more honesty  
rise above sayin' sit awhile and we'll see

queen of hearts go ahead  
play your parts instead of the real thing  
which will never come  
use your head

ask me why the next time when I cant recall your name  
you still cry and yet my answer will remain the same  
you just

love with a trifle more honestly  
rise above sayin' sit awhile and we'll see
