"Hello Again"

Visit "[Hello Again](#)" on MotoLyrics.com

Did you plan for moving on?
Cause you can't stay here
You're better off alone
Away from everyone
Embrace your fear
And everything will clear

Hello again, where have you been?
Don't tell me we've crossed
The point of no return
And when we reach the end
I'll be waiting for
Hello again, hello again

I can handle moving on
And I can stay here
I'm better off alone
Away from everyone
Erase the fear
And everything will clear

Hello again, where have you been?
Don't tell me we've crossed
The point of no return
And though we've reached the end
I'll keep waiting for
Hello again, hello again

Hello again, where have you been?
We already crossed
The point of no return
And though we've reached the end
I'm still waiting for hello again
Didn't plan for moving on
