Hot Chip
"A-B-C"

Everybody's whistling the Hot Chip sound
People hear the beat and then their bodies move
around
When the ground's shaking then you know you've felt
the bass
Then the singing starts and they proceed to wreck the
place

Everybody's whistling the Hot Chip sound
People hear the beat and then their bodies move
around
When the ground's shaking then you know you've felt
the bass
Then the singing starts and they proceed to wreck the
place

I don't, I don't know the deeds to bring the goods to me
I know we have got the goods to bring them to their
knees
I don't, I don't know the deeds to bring the goods to me
I know we have got the goods to bring them to their
knees

I do proclaim, I do proclaim

Everybody's whistling the Hot Chip sound
People hear the beat and then their bodies move
around
When the ground's shaking then you know you've felt
the bass
Then the singing starts and they proceed to wreck the
place

Everybody's whistling the Hot Chip sound
People hear the beat and then their bodies move
around
When the ground's shaking then you know you've felt
the bass
Then the singing starts and they proceed to wreck the
place

Making tracks just like A B C

Picking up awards like 1 2 3
Alexis singing like Do Re Mi
Keep on looking but you can't see me
