When you're feelin dark and stormy
Let me sing a song for you
In your room a forest grew
Walk through and lift you blues
Aho aho aho

White be for you
I say aho aho aho
White be for you
I'd be for you

I feel it spread out before me
I feel I can make you own me
When you hear me howl and move
In your room a forest grew
Aho aho aho

White be for you
I say aho
White be for you
I'd be for you

We made our own love
Nobody helps us
We'll make our own love
Outrun the sadness
We made our own love
Nobody helped us
We'll make our own love
Outrun the sadness
