I'm ready to try this
The centre's a sea pit
I could be wealthy
With nothing to stop me

I'm ready to try this
(I move underwater)
The centre's a sea pit
(I eat water slaughter)
I could be wealthy
(Inside a moon and palace)
With nothing to stop me
(Let's rain another chalice)

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

You said if I tried this
(I'd be teleported)
But when you first tried this
(Your mind de-contorted)
And if this is heaven
(I might have to tell you)
I'm gonna give hell, just
(A quick one's over)

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

"Before we go any further
I'd like to show you all a game I made up.
This game is called 'Sounds of the Studio'.
And it can be played with any record
Including this one. You may be surprised!
Now if you have a pair of headphones
You better get 'em out and get 'em cranked up
'Cause they're really gonna help you"

That's a pure solution
That's my magic potion
That's the incantation

That's a pure solution
That's my magic potion
That's the incantation

Bahhhh

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out

Out and out and out
Shake a fist
And let's breathe it in without

Out and out and out
Out and out and out
Shake a fist
And let's breathe it in without

You said if I tried this
(I'd be teleported)
But when you first tried this
(Your mind de-contorted)
And if this is heaven
(I might have to tell you)
I'm gonna give hell, just
