Hot Chocolate - I Believe (In Love)

The time of my life is when I'm with you  
To see you again, to hold you and touch you  
So I couldn't believe it  
That you would stand here by me  
Making me strong, so strong

Do I believe, do I believe  
Yes I believe in love  
Do I believe, do I believe  
Yes I believe, yes I believe

When I go away to some distant place  
Alone in your room there's no one to tell you  
Well life couldn't be so sad  
I'm worried I may be wrong  
Then you're so glad, so glad  
When I'm home

Do I believe, do I believe  
Yes I believe in love  
Do I believe, do I believe  
Yes I believe, yes I believe
