Hot Chocolate - Love is Life

I have seen the way the earth takes a seed
And with care, gives us a flower, a tree
Or something on which you can feed
That is love, love is life, love, I love you

I will see the day when men will come together
Every blind man will use his eyes to see
There will come a day, I know, 'cause I'm a believer
And love will find a way

Every man will sing, love, I love you
Hear sweet voices ring, love, I love you
Together we will sing, love, I love you

I have seen the way God's earth lives for the sun
Welcome, sun, shine on him, on me, on life, on
everyone
That is love, love is life, love, I love you

I will see the day when men will come together
Every blind man will use his eyes to see
There will come a day, I know, 'cause I'm a believer
And love will find a way

Every man will sing, love, I love you
Hear sweet voices ring, love, I love you
Together we will sing, love, I love you
Yeah, yeah
