Wooo

Nine Ten

Sometimes it's better not to stick bits of each other in
each other for each other

Sometimes it's better not to stick bits of each other in
each other for each other

Sometimes it's better not to stick bits of each other in
each other for each other

Sometimes it's better not to stick bits of each other in
each other for each other

You draw the curtains
And I'll paint the window shut
Resisting the bird song
I'll show you show you baby this
Is the way we can dance

It's another day

It's another day

It's another day

It's another day

It's another day

It's another day

It's another day

It's another day

Sometimes it's better not to stick bits of each other in
each other for each other

Wooo

Nine Ten
