Bags of paper
Drugs and letters
His navy medals
But she knows better

Pictures of boyfriends
Pictures of dream ends
Take some time now
Make trouble for ya

Wade through your life
Wade through my life
All of the small things
Shine in the big light

Starting somewhere
Ending elsewhere
And make sure when you leave
You leave someone else there (to care)

Blue dye a crime scene
Blood on the gate's lock
Get over your grief
Get over the shock
Get in the car now
You must drive faster
Liquidate life's work
The end's a disaster
