Here she comes across the street  
But I'm already there downstairs to meet with her  
She could make my life complete  
But I'm already there to compete with her  
Climb aboard my velvet roof  
And smile showing me one golden tooth  
A simple gesture yes or no  
Would have been enough to let me know

Scraggly hair and messed up shoes  
I'm lookin' all around for you  
Find you in the corner bar  
But you can't find the keys to your car  
She's as sharp as a razor blade  
But she could cut my wrists open just the same  
Softer than my velvet floor  
Gatherin' up the veil and goin' home  
Hey, hey  
Hey, hey

Scraggly hair and messed up shoes  
I'm lookin' all around for you  
Find you in the corner bar  
But you can't find the keys to your car  
She's as sharp as a razor blade  
But she could cut my wrists open just the same  
Softer than my velvet floor  
Gatherin' up the veil and goin' home

Hey man what's the matter with  
Hey man what's the matter with you?  
Hey man what's the matter with  
(Hey man what's the matter with)  
Hey man what's the matter with you?  
(Hey man what's the matter)  
Hey man what's the matter with  
(Hey man what's the matter with)  
Hey man what's the matter with you?  
(Hey man what's the matter with you?)  
Hey
