"When You Discover"

Visit "[When You Discover](#)" on MotoLyrics.com

One, two, three, four

Come back when you are done
Lookin' down on everyone
Ain't it hard when you discover that you're dumb?

Open up your sleepy eyes
Cut off all your family ties
Ain't it hard when you realize you're young?

All these noises in your head
Last time I saw you, you were dead

Roll your eyes back in your head
Mark the words that I have said
Come back when you realize you're dead

All these noises in your head
Last time I saw you, you were dead

Roll your eyes back in your head
Mark the words that I have said
Come back when you realize you're dead
Ain't it hard when you discover that you're dead?
