Better save that hot hot seat for the emperor
He's the arsonist, yeah I got the evidence
Better eat the lion before the lion eats you

Rome's getting on like a house on fire
where's my kerosene or my gasoline?
I'm at here at the gates all alone

minimalist impression made
minimalist impression made
minimalist impression made of the circus maximus

(repeat first and second verses)

Start a fire.
A burning riot.
Through the continents of Constantinople.
