Walking oh so slowly.
Don't know anybody.
Feels like I'm in Cairo.
Talking oh so quickly.
Please explain what they mean.
Taking matters too light.
How did this start a fight.
Why did I tie them tight?
Double knotted tonight.
I guess this must be Cairo.

Diamonds and brass hid behind painted glass in the
heart of Cairo.
Sinking in way too deep.
I won't care what they think once I've left for Cairo.
Thinking about it too hard.
Shouldn't take this too far or I'll end up in Cairo.
How did I find my back in... Cairo?
