She knows that the way to get in to her heart is through
her head

I waited for her
A little bit each day
A little bit each day
A little bit each day
I waited for her

She knows that the time to be a little girl isn't around
much longer for her

She only wants to play
She only wants to play
She only wants to play
So i waited for her
I waited for her
I waited for her

Her heart was a toy she gave away at night it needed a
home

I gave that to her
And every single day
And every single day
And every single day
I waited for her
I waited for her
I waited for her
I waited for her

She knows that the way to get in to her heart is through
her head

I waited for her
A little bit each day
A little bit each day
A little bit each day
I waited for her

I know that the way to bring her back alive isn't to wait
around here for her

There's nothing more to say
There's nothing more to say
There's nothing more to say
There's nothing more to say

But i waited for her
I waited for her
I waited for her
I waited for nothing
But i waited for her
