Where was I when he wiped the lip gloss from his chin
Where was I when he wiped the lip gloss from his chin
I know exactly where you've been
I know exactly where you've been
It's bearing on my weakened mind
It's bearing on my weakened mind
And when and where did you decide to suck the
imagery out of life
And when and where did you decide to suck the
imagery out of life
I know exactly what's gone down
I know exactly what's gone down
It's never going to last forever
It's never going to last forever
I gave my breath to you
I gave my breath to you
It's in everything we do
It's in everything we do
Well I know that I've done wrong
Well I know that I've done wrong
But it doesn't mean that there's no love in this
But it doesn't mean that there's no love in this
In this broken heart of mine
In this broken heart of mine
You take one last breath this time when you cross that
line
You take one last breath this time when you cross that
line
Why should you carry all the weight.
Why should you carry all the weight.
