"Knees"

Visit "[Knees](#)" on MotoLyrics.com

and i run there but my knees are week and body needs
to be close to you sometime soon

and i dont ever need you to yell at me

the tempertaure will rise 98 degrees

and i dont ever need you to yell at me

the temperature will rise

and i can barely breath

you can wake me when we get there cause i dont care
if i see the daylight

and i run there but my knees are week and my body
needs to be close to you sometime soon

and i dont ever need you to yell at me

the temperature will rise 98 degrees

cause i dont ever need you to yell at me the
temperature will rise

and i can barely breathe
