Focus why can't you just focus
Focus all your time one thing at a time
Question you answer me with questions
You answer me with lies one line at a time
Running away
What's so funny this time (you run away)
What do you care if we're having a good time (its a two
hand touch)
Attention
I need your attention
Although you never mention
You haven't any time
Breaking
I'm feeling the resistance the complications start the
breaking
Of my heart full contact two hand touch
As i pull you to the ground again.
