A thousand words in every language  
Light up the stars for you  
The size of the universe  
Alright!  
I'm never coming back  
Back to earth  
I didn't notice  
I didn't get it  
Not one to watch from the outside  
I'm never coming back

Is this the kind of love  
That can never happen  
Turn on the water works right now  
I ain't laughing  
You got a problem  
I'm unfit to solve  
I'm never coming back

I'm new  
I'm novice  
And I'm not privy  
And it's not pretty  
But it's not unfair  
It's so unfair  
I know that a mouthful of spit and germs  
Is all I got to share with you  
But I need your loved
