

## Hot Snow Storm "All I Want From You"

Visit "[All I Want From You](#)" on [MotoLyrics.com](https://MotoLyrics.com)

1. This day is telling me something that I can't  
understand  
These lips are saying something but no one comes to  
help  
This mind is full of dreams, and full of unsaid words  
A broken heart, a broken world, one day this will hurt

So I want you to

Chorus:

Leave me, leave me I said if you don't wanna be with  
me  
But you need me every night and you will come back to  
me  
You think of me when the phone rings and find you  
miss me  
Leave me, leave me I said if you don't wanna be with  
me

2. And when you will realize that you need me

Then I'll be gone, I'll be far away, don't you see?  
And you will realize that without me you're lost  
And I don't care if you say you're sorry, that's the end  
of us!

So I want you to

Chorus:

Leave me, leave me I said if you don't wanna be with  
me  
But you need me every night and you will come back to  
me  
You think of me when the phone rings and find you  
miss me  
Leave me, leave me I said if you don't wanna be with  
me
