Every night I pray for someone like you,  
to come in my life baby.  
It finally came true.  
You were the one who captured my heart.

Together forever, never ever be apart.  
This feels like a fantasy,  
like a storybook, I read.  
Everything's so picture perfect,  
nothing's left unsaid.

(Chorus)

Baby, it took me this long for me to find you,  
I'm not about to loose you.  
Baby, you can be sure I'll love you forever.  
Baby, it's better late than never.

It took me this long for me to find you,  
I'm not about to loose you, boy.  
Every time I look in your eyes,  
I can see the vision of you, a dream,  
once belonged to me.  
If I had to do it all again,  
just tell me when,  
I'll wait for your love, baby.

This feels like a fantasy,  
like a storybook, I read.  
Everything's so picture perfect,  
nothing's left unsaid.

(Chorus)

You're all I want, boy,  
you're all I need.  
It took this long to find you,  
and I'll never let you go.

(Chorus)
