Babe I want you to know, babe I want you to know  
That little bit you been doin', Lord, babe don't you do it  
no more

Babe I want you to know, babe I want you to know  
That little bit you been givin', Lord, babe don't you do it  
no more

'Cause I'm a stranger here just got in your town  
Ain't none of these women gonna turn me down  
I'm cryin' baby, oh honey

Babe I want you to understand, babe I want you to  
understand  
I don't mean you no good, please get you another man

Babe I want you to understand, babe I want you to  
understand  
I don't mean you no good, please get you another man
