Looked outside my window, fog came up to play  
That gray outside is around my head  
Looks like it's there to stay, looks like it's there to stay  
Looks like it's there to stay

Can't you see I love you, I want you more and more  
I see you here most every day, I don't know where you  
are  
I don't know where you are

Time goes on and I get older, what am I gonna do?  
My mirror face keeps getting colder  
My eyes still look for you, my eyes still look for you  
Now, said my eyes still look for you

Sun came out this mornin', highway showed my way  
Cracks in the sand pulled me into the sea  
Washed my cares away, washed my cares away  
Washed my cares away

You know I want to touch you, my back end gives me  
pain  
Your smile releases all my life like flowers under rain  
Like flowers under rain, we start to live again
