(Jorma Kaukonen)

Looked outside my window

Fog came up to play

That gray outside is around my head

Looks like it's there to stay

Looks like it's there to stay

Looks like it's there to stay

Can't you see I love you

I want you more and more

I see you here most every day

I don't know where you are

I don't know where you are

Time goes on and I get older

What am I going to do?

My mirror face keeps getting colder

My eyes still look for you

My eyes still look for you, now

Said my eyes still look for you

Sun came out this morning

Highway showed my way

Cracks in the sand pulled me into the sea

Washed my cares away

Washed my cares away

Washed my cares away

You know I want to touch you

My back end gives me pain

Your smile releases all my life

Like flowers under rain

Like flowers under rain

We start to live again
