Looked outside my window
Fog came up to play
That gray outside is around my head
Looks like it's there to stay
Looks like it's there to stay
Looks like it's there to stay

Can't you see I love you
I want you more and more
I see you here most every day
I don't know where you are
I don't know where you are

Time goes on and I get older
What am I going to do?
My mirror face keeps getting colder
My eyes still look for you
My eyes still look for you, now
Said my eyes still look for you

Sun came out this morning
Highway showed my way
Cracks in the sand pulled me into the sea
Washed my cares away
Washed my cares away
Washed my cares away

You know I want to touch you
My back end gives me pain
Your smile releases all my life
Like flowers under rain
Like flowers under rain
We start to live again
