Well Lord said search my heart
Oh Lord now search my heart
Well said search my heart, so I'll know what's right and
what's wrong

When I'm in trouble said search my heart
When I'm in trouble said search my heart
Well when I'm in trouble said search my heart, so I'll
know what's right and what's wrong

When I'm in misery said search my heart
When I'm in misery said search my heart
When I'm in misery said search my heart, so I'll know
what's right and what's wrong

Well Lord said search my heart
Oh Lord now search my heart
Well said search my heart, so I'll know what's right and
what's wrong
