So what's wrong with this way
Besides the fact that it's not in the book you read
You see i've found a way and it works at least for me
So i can't look down on those that become found on
their own
Or that walk to a beat they know they found alone
I believe in change for inner peace
And thoughts that ring us awake
We are not the same and we should see
That other ways make others free
So who are we to judge and take aim
And who are we to cast stones at those not the same
Day by day we all change systems change
We live for change
So why can't we accept others ways in respect to learn
From our own
