Let's electrocute send ourselves in constant airwaves
Ringing out from voice to ear to free ourselves from...
There's an army charged, ready,
Armed to educate and demonstrate to the masses
To the people left in the dark with blinders on
Not holding back to activate
Never holding back to activate
A full-fledged pledge to eradicate
With authorities that hold themselves higher
A full-fledged pledge to liberate
The minorities who only want their rights
To save ourselves from those who demonstrate to the
masses
To the people left in the dark with blinders on
Not holding back to activate
Never holding back to activate in rebellion
