

Hot Water Music "Safety"

We're safe for now but that will fade away.
It's the same old line that we bought yesterday.
It don't take no time just what you think you save.
You're still free to live if you can find a place.
Quick to rise, quick to fall.
Sometimes I don't even care at all.

They don't need no lies to sell you anything,
Cause I want it now more than I want to say.
Don't need you blind, just take the light away,
And that sweetness turns into a belly ache.
Quick to rise, quick to fall.
Sometimes I don't even care at all.
