Is there something wrong
Do ya hate this song
Cuz I'm singin about it again
Did ya know the words
Before you read them
Did ya notice
She had it and she wants it again
He had it and he lost it again
In the fallout or the aftermath of
So many days so many days I guess it's all been done

Maybe it's all been sung
Before By wiser people but its not stopping anyone
Falling apart from heartache
She had it and she wants it again
He had it and he lost it again In the fallout or the
aftermath of
So many days so many days
Another second is another made
So many days
