Is time away
you know you stand now
until you know you.
'cause it's make out
and it's tired of crown
the real.
is just and fall back down

It's all wrong, take it the wrong way
where I fall, where I fall
though we find something wrong
together

Find a way so bad business
I know you're not wasted
is for down
'cause it's so wrong
you're so wrong

2 x
To take it the wrong way
where I fall, where I fall
though we find something wrong
together

Take it the wrong way
where I fall, where I fall
though we find something wrong
together
will take it the wrong way
where I fall, where I fall
