The way you walk, the way you talk,
The way you smile, the way you looked at me girl
For a while, start to blush,
Like a child, but I'm playing no game now
I will do anything for your love
Just say the word now
You're my day, you're my night
You're my sun, you're my rain, you're my world now

I've got to have you, a a
Got to hold you, oh oh
I've got to squeeze you
I'm longing for your love girl
I've got to have you, a a
Got to hold you, oh oh
I've got to win your heart

Chorus:
You set my soul on fire (x4)

Fire, Fire (x3)

The first time I saw your face
Girl I know that I met my bride now
Never felt this way for anyone
So real inside now
I can see myself taking strolls
With you in the park now
Hugging up, kissing up, loving up
Just chilling on my yacht now

I've got to have you, a a
Got to hold you, oh oh
I've got to squeeze you
I'm longing for your love girl
I've got to have you, a a

Got to hold you, oh oh
I've got to win your heart

Chorus:
You set my soul on fire (x4)

My heart is burning, burning, burning for your love
My heart is aching, aching, aching for your love
My heart is moaning, moaning, moaning for your love
My heart is screaming, screaming for your love now

Chorus:

You set my soul on fire (x4)

The way you walk, the way you talk,
The way you smile, the way you looked at me girl
For a while, start to blush,
Like a child, but I'm playing no game now
I will do anything for your love
Just say the word now
You're my day, you're my night
You're my sun, you're my rain, you're my world now

I've got to have you, a a
Got to hold you, oh oh
I've got to squeeze you
I'm longing for your love girl
I've got to have you, a a
Got to hold you, oh oh
You are the one for me

Chorus:

You set my soul on fire (x4)

Fire, fire (x3)
