"The End Of The Tour"

There's a girl with a crown and scepter
who's on WLS
And she says that the scene isn't what it's been
and she's thinking of going home
That it's old and its totally over now
And its old and it's over and it's over now,
and its over its over its over
Now I can see myself
At the end of the tour
When the road disappears
If there's any more people around
when the tour runs aground
and if you're still around
then we'll meet at the end of the tour
The engagements are booked through the end of the
world
so we'll meet at the end of the tour
Ever to part since the day we met
out on interstate 91
I was bent metal you were a flame in red
when we kissed at the overpass
I was sailing along with the people
driving themselves to distraction inside me
then came a knock on the door which was odd in the
picture
probably change

at the end of the tour
when the road disappears
if there's any more people around
when the tour runs a ground
and if you're still around
we'll meet at the end of the tour
the engagements are booked at the end of the world
so we'll meet at the end of the tour
This was the vehicle
these were the people
you opened the door and it spilled all the people
this was the vehicle these were the people
you opened the door at it spilled all the people
This was the vehicle these were the people
and you let them go.

At the end of the tour
when the road disappears
if there's any more
people around when the tour runs aground
and if you're still around then we'll meet at the end of
the tour
the engagements are booked through
the end of the world so we'll meet at the end of the tour
and we're never going to tour again
we're never going to tour again.
