music/lyrics - D. Malejonek
Left behind your friends and parents
You don't care about anyone else
You've been told they are useless
They can't help you on your way
Day by day you're gettin' deeper
Feel like sterylize your mind
Don't you know they just control you?
But you're dancing in the light
chorus: Why? Why?
You've been told that you decide
What is wrong and what is right
That you create your past and future
And all depends on state of mind

Very pretty deadly flower
It's a trap so stay away
They want to kill your personality
Make you their another slave
chorus: Why? Why?
Meditation make you easy
To accept their every lie
So why are you stuckin' deeper?
Do you want your soul to die?...
chorus: Why? Why?
