We've Been

Everynight I pray for someone like you
To come in my life baby
It finally came true
You are the one who's captured my heart
Together
Never ever be apart
This feels like a fantasy
Like a story book i've read
Everything's so picture perfect
Nothing's left unsaid

CHORUS

Baby
It took this long for me to find you
I'm not about to lose you
Baby
You can be sure i'll love you forever
Baby you're better late than never
Baby
It took this long for me to find you
I'm not about to lose you boy

Everytime I look in your eyes I can see
The vision of you
A dream once belonged to me
If I get to do it all again
Just tell me when i'll wait for you baby
This feels like a fantasy
Like a story book i've read
Everything's so perfect
Nothing's left unsaid

CHORUS

You're all I want
Boy you're all I need
It took this long to find you
And i'll never let you go

CHORUS
